## WORK EXPERIENCE

### Software Developer - Frontend

Appventurez Mobitech – Noida

Aug 2025 – Present

- Development of reusable, optimized, well documented code components using Vue.js. Ensuring responsive, cross-browser compatibility while closely working with the backend team, database, and API integration.

### Software Engineer 2

LawSikho (AdictiveLearn) – Remote

May 2025 – Jun 2025

- Followed HTML5, CSS3, adaptive design principles, accessibility standards, and CSS frameworks by writing clean, readable code, and increased production value by 65%.

### Software Engineer

Beez Innovation Labs – Kolkata

Sep 2022 – Oct 2024

- Integrated frontend with RESTful APIs using Vue.js and React.js worked closely with backend developers.
- Reduced page load time and increased speed, performance, and scalability by over 70% through web performance optimization techniques.
- Debug, troubleshoot, and resolve front-end issues to ensure bug-free, smooth application performance.
- Maintained scalable codebase using GitHub and led quality assurance testing, cutting bug reports by 25%.

### Junior Automation Developer

Beez Innovation Labs – Chennai

Jun 2021 – Aug 2022

- Collaborated closely with designers to develop scalable, modular, maintainable, pixel-perfect, SEO friendly web pages using JavaScript framework Nuxt.js, in an agile work environment.
- Owned Beez's official website project, ensured cross-browser compatibility, responsiveness testing to deliver user-friendly interfaces, reducing bugs by 92%.

## EDUCATION

KCG College of Technology -

2018-2021

Bachelor of Engineering in Computer Science

Tripura Institute of Technology - 2014-2018

Diploma in Engineering in Computer Science
